

# CSTC-40 PCB From Start to Finish

## CSTC-40 PCB 从头到尾

### 1. 刷写固件 1. Flashing Firmware

在PCB未接入按住左上角按键,然后通电,显示FXTwink,这个U盘

Hold down the top-left key on the PCB before connecting it to power. Once powered, it will display "FXTwink" as a USB drive.

Double-click to open the drive, drag the .UF2  
firmware file into it, and do not modify any files in the  
drive!

双击打开,将.UF2固件拖入即可,U盘中的文件不要动!
